RE: Port Columbus International Airport  
ExitSentry System(s) – Electrical Installation

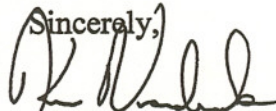

Dear Greg:

All of us here at Cernium would like to express our sincere appreciation for your part in the electrical installation of the ExitSentry systems at Port of Columbus Int'l Airport. It was truly a pleasure to work with you and your staff on this project. We were very pleased with the quality of workmanship and ease of doing business with your company. Your electricians, Lloyd and Jimmy were extremely proficient in their work, and they demonstrated a conscious concern for the airport customer. They also showed a willingness and flexibility to work with us to provide an accurate and quality installation in a very timely manner.

We thank you for your participation in this project, and we look forward to the opportunity to work with Royal Electric again. Please don't hesitate to send any of your prospects our way, and we will be happy to provide a very positive reference on your behalf.

Thanks again!

Sincerely,

Ken Vondrasek  
Aviation Systems Manager  
Cernium Corporation
