Re: T6 Inpatient Renovation
Recognition for Skip Brown

Mr. Ernst:

This project has been proceeding on a rigorous schedule since its initiation in June. We have been very favorably impressed with the consistent positive effort and "can do-ism" of Skip Brown. His ability to manage the respective tasks at hand and to keep Royal's work aligned with the schedule, in spite of numerous owner changes and field conditions has been noticed. We want to inform you of this recognition and ask for you to forward these gift certificates along with a copy of this letter and our thank-you to Skip.

We will look forward to a successful completion in January.

Sincerely,

Handwritten signature of William T. Nutter in black ink.

William T. Nutter
Director, Engineering Services
