2050 Integrity Dr., S.  
Columbus, OH 43209

RE: Letter of Recommendation

Ron,

I would like to take this opportunity to thank you and Lloyd for all of your very hard work and dedication to complete the Delta Air Lines new Main Communications Room and Airport Renewal project at Port Columbus International Airport. Your superb efforts were essential to complete the electrical work more than one full week ahead of the contract schedule, which was only 60 days in total.

Your unwavering attention to detail to ensure that the electrical installation was correct allowed us to start testing the UPS components in advance of many other locations that started construction well before you did at Columbus. This is no small achievement, and it has significantly aided the progress of the overall project consisting of 28 locations nationwide by allowing us to detect and resolve issues with Owner supplied equipment and apply the lessons learned to other cities that are under construction throughout Delta's system.

Our client, Delta Air Lines, is extremely impressed with both the quality and timeliness of this project. I look forward to working with you and Royal Electric on many future projects.

Sincerely,  
PROJECT MANAGEMENT SERVICES, INC.

Evangelos Panousis  
Project Manager
